HOW TO USE YOUR CITY DIRECTORY

The new and improved Toronto City Directory is the most complete and comprehensive catalogue ever published of the inhabitants, business concerns and institutions of the city.

The revised form and new features exemplify the efforts of the Publishers to add to the utility and value of the Directory to its daily users and to make it an even more worthy representative of an outstanding city.

The major sections in the City Directory are arranged in the following order for ready reference:

1. INTRODUCTION AND MISCELLANEOUS
2. CLASSIFIED BUYERS' GUIDE
3. ALPHABETICAL SECTION
4. HOUSEHOLDERS' AND STREET GUIDE

(Particular attention is called to the arrangement of sections as above.)

We believe that the following list of typical questions, many of which the Directory will be daily called upon to answer, will serve to indicate both the types of information available and the sections in which it may be readily located.

THE TORONTO HARBOUR COMMISSIONERS

Active development operations were commenced by The Toronto Harbour Commissioners in 1914 and with the co-operation of the City Council and the Dominion Government the Port of Toronto has become one of the most modern harbours on the Great Lakes.

Due to a large extent to the improved port facilities and also to the opening of the Welland Ship Canal, waterborne traffic of Toronto Harbour has been marked by phenomenal expansion as shown by the following table of cargo tonnage:

Year	Tons
1925	476,950
1930	1,292,864
1935	3,020,130
1940	4,762,292
1941	4,166,951
1942	3,692,017

Two large waterfront industrial areas have been created, almost entirely out of non-revenue producing marsh lands and lands covered by water. These two areas have approximately nine miles of modern dockage and are served by wide paved streets and approximately thirty miles of railway trackage owned or controlled by the Commissioners.

In addition to the improvements effected in navigation, commercial and industrial facilities, the development plans included the reclamation of park and recreational areas, of which Sunnyside Beach near the western entrance to the City has become Toronto's lakeshore playground. And extending easterly from the Humber River to Leslie Street, a distance of approximately 7 miles, is the cross-town waterfront highway made possible by the waterfront development and with, for the most part, a minimum pavement width of 50 feet.

The general taxes received by the City from industries located on lands created by the Harbour development, the benefits arising from the increased waterborne trade of the Harbour and the impetus given thereby to the commerce of the City, apart from the saving to the citizens by reason of low cost transportation, are tangible results of the development.

The two municipal airports, one a combined airport and seaplane base on Toronto Island and the other an all-weather airport at Malton, are administered by the Harbour Commissioners for and at the expense of the City.

The Toronto Island Airport and Seaplane Base is located to the south of the Western Channel entrance to Toronto Harbour, within the City limits approximately one and one-half miles from the Union Station.

The Toronto-Malton Airport is located to the north-west of the City of Toronto. The Airport proper is leased for the duration of the war to the Department of Munitions and Supply. Air service between Toronto and principal Canadian and American cities is provided by regular scheduled flights by Trans-Canada Air Lines and American Air Lines to and from this Airport.

TORONTO—INDUSTRIAL FACTS

Manufacturers of the Toronto area annually purchase raw material to the value of $306,675,420.

There is almost as much money invested in its manufacturing enterprises as the combined total Canadian manufacturing investments west of The Great Lakes.

The capital invested in manufacturing is equal to the combined manufacturing capital of the next seven manufacturing centres of Ontario.

Greater Toronto pays annually $157,027,739 in salaries and wages to her manufacturing workers; a greater amount than any other Canadian city.

INDUSTRIAL DEVELOPMENT

There are approximately 2,995 manufacturing establishments in Toronto and suburbs. Toronto has more factories than any other Canadian city, including twice as many branches of British and United States firms. The gross value of manufactured products in 1940 exceeded $660,000,000. The capital invested in industries approximates $550,000,000. There are in the Toronto area 120,000 industrial employees, and the 1940 manufacturing payroll approximated $160,000,000.

Toronto is firmly established as Canada's leading industrial and distributing city. It is the immediate centre of the largest and wealthiest consuming population in Canada (one-third of the buying power of the entire Dominion market is concentrated within a radius of 100 miles), and it is the centre also of Dominion-wide business and wholesale trade. It is also a favorable base for world-wide export trade, which is one of the outstanding features in Canadian industrial development.

The volume and diversity of Toronto manufacturers provide plentiful and efficient labor, skilled and unskilled, male and female, in fact it is the provincial clearing house for labor.

Toronto has excellent transportation facilities with many sources of raw and semi-manufactured materials in close proximity. Rail, water, highway and air communications radiate from Toronto giving efficient and low-cost distribution.

Splendid industrial sites are available in the harbor, in many other zones within the city limits and in its industrial suburbs. It has electric power at cost and it is one of the financial centres of the North American continent.

The Toronto Industrial Commission, Canada Permanent Building, 320 Bay Street, Toronto, is the official industrial commission for the City of Toronto and suburbs.

Many other statistics show how rapid and sizeable has been the city's business growth. Consider the large increase in the number of telephones—the pulses of city commerce in Toronto. The figures for the past few years are:—

The increase in the number of telephones in service since 1903 is as follows:—

December 31st, 1903	11,350	December 31st, 1939	222,069
December 31st, 1913	54,156	December 31st, 1940	232,258
December 31st, 1923	128,605	December 31st, 1941	248,419
December 31st, 1933	185,483	December 31st, 1942	257,645

TORONTO—EDUCATIONAL FACTS AND SCHOOL STATISTICS

Toronto has 19 libraries—a Public Reference Library, corner of College and St. George; Central Circulating Library, 36 St. George Street (with Central Reading Room and Music Library on College Street); 17 Branch Libraries (including a branch library for the troops in training in Exhibition Park), and a Boys and Girls House, 40 St. George Street. The annual use of books for 1942 was 3,928,657 volumes. Total books in all libraries is 655,496.

Toronto offers unusual educational, religious, recreational and home facilities to the working man; sane labor laws honestly and ably administered, all result in satisfied and satisfactory employees.
